Sheet No. 30

Net Metering  
(General Service  
Classification)

Net Metering

Company  
Rate  
Code

Applicable:

All members served by the Association.

50

Available:

Available to all qualifying Customer Generators.

Rate:

The rate shall be equal to the incremental kilowatt-hour (kWh) cost of electricity delivered by YVEA's primary wholesale power supplier from the Annual Period. The Annual Period shall be defined in YVEA's Net Metering Policy.

\$0. 03451

Minimum Annual Charge:

System access cost.

Conditions of Service:

Interconnection and operation with a Customer Generator will be in accordance with the rules and requirements, including insurance, of the Yampa Valley Electric Association, Inc. ("YVEA") policies, rules, and regulations and applicable law. YVEA shall approve the means of automatically and manually disconnecting the system as required by the NEC. To qualify, Customer Generators applying prior to 2014 or on or after January 1, 2023, must have systems with a design capacity of 10 kW or less for residential service and 25 kW or less for commercial or industrial service. Customer Generators applying during the period beginning in 2014 but before January 1, 2023, with design capacity of 25 kW or less on a Small General Service Rate and 150 kW or less on a Medium General Service Rate, Large General Service Rate, or Irrigation Rate also qualify, provided Customer Generator is operational before December 31, 2023.

Terms of Payment:

If the electricity supplied by YVEA exceeds the Customer Generator's production, the customer will be billed monthly for their consumption. If at the end of each Annual Period the production for the Customer Generator is greater than consumption, any remaining unused kWh Credits upon the customer account shall be sold to the Association at the rate calculation described above. Payment or bill credit will be based upon metered Quantities registered.
