**Net Metering**  
(General Service Classification)

Tariff for Purchases from Customer Generators  
(Rate Title or Number)

Company  
Rate  
Code

RATE  
50

**AVAILABILITY:**

Available to all qualifying Customer Generators with a design capacity of 25 kW or less on a Small General Service Rate and 150 kW or less on a Medium General Service Rate Rate.

**RATE:**

Total Avoided Energy Cost (per kWh)  
Defined as and including: wholesale energy, demand, transmission, ancillary charges and fuel cost adjustment.

\$0.0330

**CONDITIONS OF SERVICE:**

Interconnection and operation with a Customer Generator will be in accordance with the rules and requirements, including insurance, of the Yampa Valley Electric Association, Inc. ("YVEA") policies, rules, and regulations and applicable law. YVEA shall approve the means of automatically and manually disconnecting the system as required by the NEC.

**TERMS OF PAYMENT:**

If the electricity supplied by YVEA exceeds the Customer Generator's production, the customer will be billed monthly for their consumption. If at the end of each Calendar year the production for the Customer Generator is greater than consumption, any remaining unused kWh Credits upon the customer account shall be sold to the Association at the Avoided cost rate. Payment or bill credit will be based upon metered Quantities registered.
